Subject: Application for notice of change in previously granted registration,
FCC registration number 6BQ-ISR-24852-XD-N

Dear Madam/Sir,

The purpose of this application is to notify ACTA to add a new model number, MGC-50, to the previously granted registration of multipoint control unit for audio and video conferences, model number MGC-100, bearing FCC registration number 6BQ-ISR-24852-XD-N.
Performed mechanical changes in chassis and back plane, another power supply do not affect compliance with Part 68 subpart D and the requirements adopted by the ACTA. The network interface circuitry of the MGC-50 is identical to originally registered MGC-100 - both the products include the NET-8 card with ISDN PRI interface.

Please find enclosed our application for notice of change of the multipoint control unit for audio and video conferences, new model number MGC-50, bearing FCC registration number 6BQ-ISR-24852-XD-N.

The product testing and this application were performed by Hermon Laboratories.

Hermon Labs responsible person is Mr. Gonen Usishkin, tel: 011 972 4628 8001, ext.103, fax:011 972 4628 8277, e-mail: gonen@hermonlabs.com.

We hope this application satisfies your requirements.

Sincerely yours

Amnon Shachar
Senior Vice President & General Manager
Polycom Israel Ltd.
