FCC Part 68 - Modification filing for the addition of
CBCC / CBRC motherboard with EVM module to HiPath 3300 System

This is the modification filing for the addition of new CBCC / CBRC Common Control motherboard with Siemens proprietary EVM (Entry VocieMail) module to the existing FCC Part 68 registered Siemens HiPath 3300 system bearing Part 68 registration number - US:AY3MF04BHIPATH3K3.

The EVM module is mounted on the CBCC / CBRC common control motherboard to provide integrated voice mail solutions to the Siemens HiPath 3300 system. Callers from public switched telephone network access EVM through the front-end FCC Part 68 registered Siemens HiPath 3300 host system network interfaces. EVM has no direct connection to the network.

The addition of CBCC / CBRC common control motherboard with EVM module to Siemens HiPath 3300 system do not require changes to any of the existing FCC Part 68 registered network interface circuits.

All tests required to prove continuing compliance of Siemens HiPath 3300 system with the FCC Part 68 requirements were conducted by Siemens Compliance Laboratory in Munich in accordance with the TIA-TSB31-B Part 68 measurement guidelines and validated by Siemens Compliance Consulting in San Jose. The test results indicate the Siemens HiPath 3300 system with new CBCC / CBRC common control motherboard and EVM module continues to comply fully with all the applicable ANSI/TIA-968-A and FCC Part 68 requirements.

Sincerely

Tailey Tung

AOF Indemnification and Liability Statement (NORMATIVE)

February 3, 2005

ACTA Secretariat
c/o ATIS
1200 G Street, NW
Suite 500
Washington, DC 20005

RE: Statement of Indemnification and Liability for use of the ACTA Online Filing ("AOF") system for the addition CBCC / CBRC motherboard with EVM module to the FCC Part 68 registered Siemens HiPath 3300 system bearing label identification number US:AY3MF04BHIPATH3K3

ACTA Secretariat:

To access the ACTA Online Filing ("AOF") database of Part 68 approved telephone terminal equipment ("TTE"), I acknowledge that it is necessary for each entity, organization and individual, whether accessing the database on its own behalf or on behalf of another, including each Telecommunications Certification Body (a "TCB") and each Responsible Party (a "RPC"), to obtain a password. By submitting this statement, I agree to the following terms and conditions and request a password.

As a Responsible Party I agree to indemnify and hold harmless the Administrative Council for Terminal Attachment ("ACTA"), its members, affiliates, Secretariat, and Sponsors, and each of their officers, directors, employees, participants, agents and representatives (the "ACTA Parties"), of and from any and all liabilities, losses, costs, damages, claims, suits or expenses (including reasonable attorneys' fees and costs) of any kind whatsoever, arising from or relating to submissions, filings, or information submitted to ACTA, or the Responsible Party's Supplier's Declaration of Conformity ("SDoC") or Telecommunications Certification Body (a "TCB") Grant of Certification submitted to ACTA in connection therewith.

I further acknowledge and agree that ACTA, and the ACTA Parties shall not, and do not, assume, and expressly disclaim, any and all liability, responsibility and obligation in connection with any loss, damage or claim arising from or relating to, in any way, ACTA's inactions or actions relating to publication, distribution or other use of any information relating to publication, distribution or other use of any information relating to or concerning submissions, filings, or information submitted to ACTA, including without limitation in connection with any claims or liabilities sounding in contract, tort (including negligence or strict liability), or otherwise, and in no circumstances shall ACTA or the ACTA Parties be liable for any loss of profits, loss of use, loss of production, loss of goodwill, or incidental, direct, indirect or consequential damages of any kind.

I further agree that pursuant to §68.218 and §68.348 in the FCC Rules and Regulations, no changes will be made to the terminal equipment submitted to ACTA for inclusion in the database of approved Part 68 equipment or the protective circuitry that would result in any change in the information contained in the corresponding SDoC or TCB Grant of Certification without filing of a new SDoC or TCB Grant of Certification.

Where applicable, I also agree to make freely available to the general public and accessible to the disabled community a copy of any SDo I submitted to the ACTA database of Part 68 approved TTE or, in the alternative, to cause a copy of any SDoC I submitted to be freely available to the public via the ACTA web site with the understanding that such service may be subject to an administrative fee.

I UNDERSTAND THAT AGREEMENT TO THE FOREGOING SHALL BE BINDING ON MYSELF, AS WELL AS ON EACH ENTITY AND ORGANIZATION ON WHOSE BEHALF I AM ACTING IN CONNECTION WITH THE ACTA BATABASE. IN ADDITION I AGREE TO BE BOUND TO EACH OF THE FOREGOING TERMS AND CONDITIONS TO THE EXTENT THEY ARE AGREED TO BE ANY ENTITY, ORGANIZATION OR INDIVIDUAL THAT, IN CONNECTION WITH THE ACTA DATABASE, REPRESENTS ITSELF OR HIMSELF TO BE ACTING ON MY BEHALF OR ON BEHALF OF ANY ENTITY OR ORGANIZATION REPRESENTED BY ME IN CONNECTION WITH THE ACTA DATABASE.
